

## Daily Study Plan for Web Design, SEO, Python, and JavaScript

### Daily Study Plan:

#### 11:00 AM - 12:30 PM: SEO Study

- Basic SEO concepts (SEO Basics)
- Keyword research
- Familiarization with SEO tools like Google Analytics and Google Search Console

#### 12:30 PM - 1:00 PM: Break

- A short break to recharge

#### 1:00 PM - 2:30 PM: Web Design Study (HTML, CSS, and Responsive Design)

- Basic HTML concepts
- CSS fundamentals
- Familiarity with CSS frameworks like Bootstrap
- Responsive design

#### 2:30 PM - 3:00 PM: Break and Lunch

- Lunch and a short break

#### 3:00 PM - 4:30 PM: JavaScript Study (Basic concepts)

- Variables, operators, and conditional statements
- Learning control structures (if, else, switch)
- Functions and loops

#### 4:30 PM - 5:00 PM: Short Break

- A cup of tea or coffee and a break to recharge

5:00 PM - 6:30 PM: Python Study

- Python syntax
- Variables, data types (lists, dictionaries, sets, tuples)
- Operators and functions

6:30 PM - 7:00 PM: Break

- A short break and a rest from the computer

7:00 PM - 8:30 PM: Practice Web Design + SEO

- Implementing small web design projects
- Optimizing pages for SEO
- Testing SEO techniques on various websites

8:30 PM - 9:00 PM: Break and Dinner

- Dinner time and rest

9:00 PM - 10:30 PM: Practice Python or JavaScript

- Solving challenging problems in Python (e.g., from sites like LeetCode or HackerRank)
- JavaScript coding practice and building small projects (like a countdown timer or image gallery)

10:30 PM - 11:00 PM: Review Day's Material + Break

- Review the topics you studied today
- Take notes on important or difficult concepts to revisit later

Tips:

1. Breaks: It's important to take regular breaks during the day to avoid mental fatigue.
2. Practical Projects: In addition to theoretical study, focus on practical projects to reinforce your skills.
3. Time Management: Feel free to adjust the study periods, but make sure to maintain a balance between study and rest.
